|   | 5 FTE are included in the DNRC Water Resources budget for the next biennium as the Compact Im | plementation Bure | eau. The duties o |

the staff are generally described in the goal. New position descriptions will be developed in the next few months as the transition begins to take place. "Housekeeping " legislation is being drafted to implement the sunset provisions in statute. The status of the remaining major negotiation with the CSKT Tribes of the Flathead Reservation is continually being monitored to evaluate whether a compact will be completed by June 30, 2009 or whether the RWRCC will need additional time to complete negotiations.
